## **DETAILED ACTION**

### ***Allowable Subject Matter***

The indicated allowability of claims 1 – 3, 5- 16, 18, 19 and 24 – 40 is withdrawn in view of the rejection under 35 U.S.C. 112, second paragraph.

### ***Response to Arguments***

Applicant's arguments with respect to the pending claims have been considered but are moot in view of the new ground(s) of rejection.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1 – 3, 5 – 16, 18, 19 and 21 – 40 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1 – 3, 5 – 16, 18, 19 and 21 – 40 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01.

Regarding claims 1, 14, 18, 29, 30 and 40, it is unclear as to how a light source would be positioned in relation to the lightguide in order to enable the recited function. Is the light source positioned at the end of the elongate lightguide or does the light enter from a top surface of the lightguide? The claim does not positively recite a light source or its position in relation to the lightguide. The structure which goes to make up the device must be clearly and positively

specified. The structure must be organized and correlated in such a manner as to present a complete operative device.
